TRAPIS

Transfer Pigment System

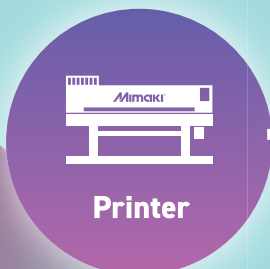

Textile Printing Made Simple

Next Generation Textile Printing System
for Sustainable Production

Waterless process and simple installation!

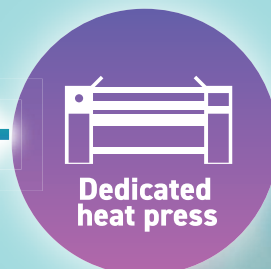

+

+

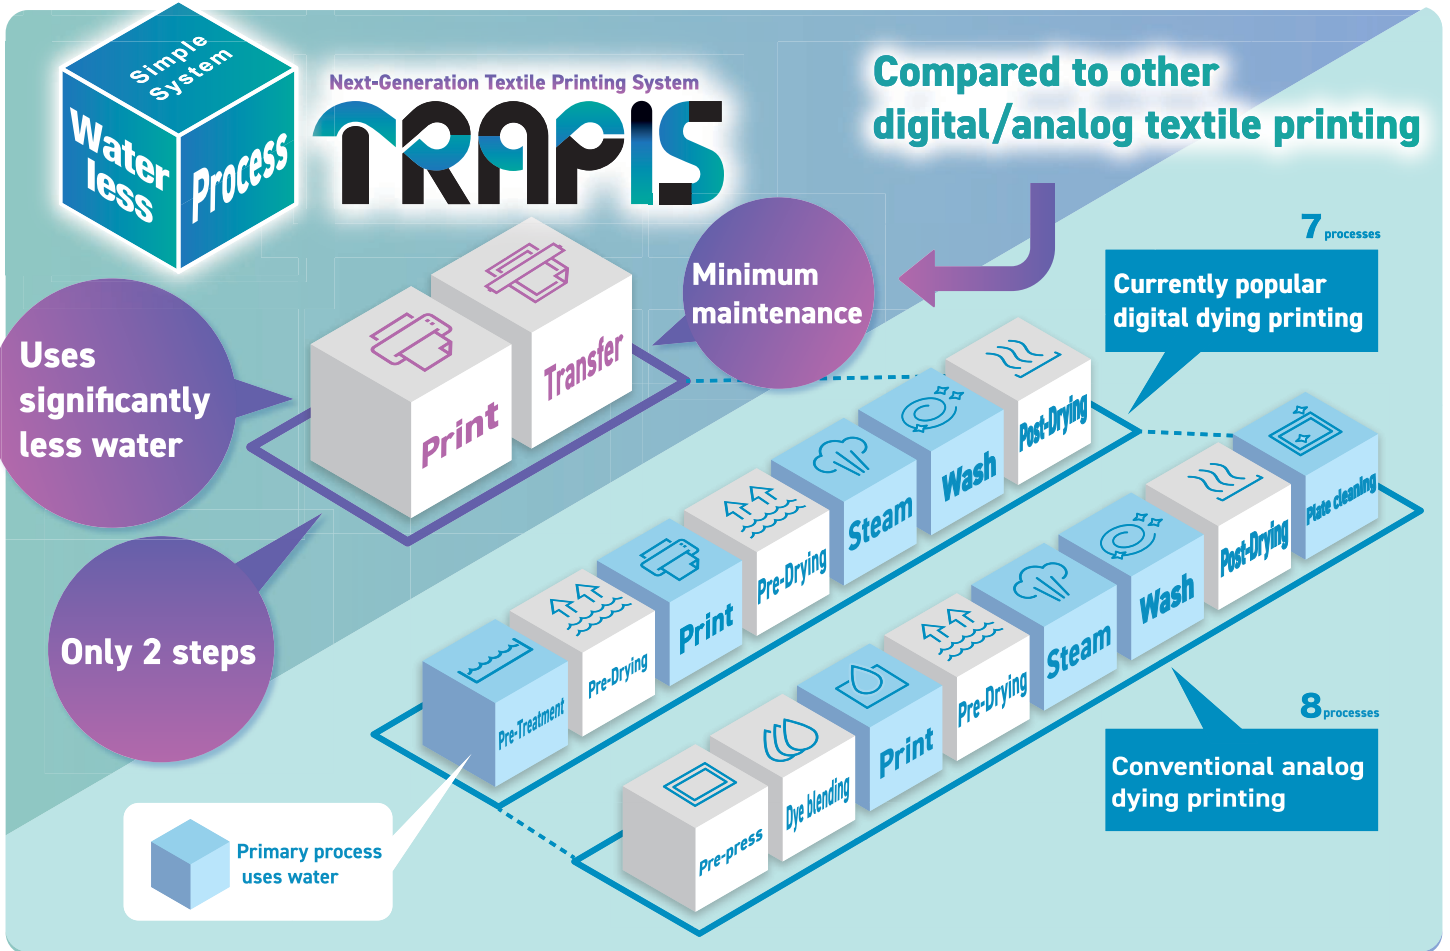

+

Simple process, easy for everyone.

Designs you want now, take shape now.

Less waste-water, environmentally-friendly textile printing system for the future

No Pre-treatment / No Washing fabric / Cleaning plates

Less water used for printing compared to conventional process!

※ Most of the waste-water is reused at transfer paper production.

One ink type, for various fabrics

Cotton · Rayon · Linen
Blended Fabric
Polyester
Silk · Nylon etc.

TRAPIS ※ only examples

uses only 1 ink type, but is suitable for printing on various fabrics!

Transfer printing process requires minimal maintenance!

No sticky feeding belt required.
No extensive maintenance required.

※ Conventional process requires extensive maintenance using chemicals
